

Chaps Measurement Chart

When measuring please wear the pants and boots you will use under your chaps. For tighter chaps measure by pulling the tape snugly.

Full Chaps	Left	Right
1. Waist – ¼” – ½” below belt		
2. Upper thigh – measure under cheek		
3. Mid-thigh – 4” down from upper thigh		
4. Knee – measure straight across the kneecap		
5. Calf – measure the widest part		
6. Ankle – (for English Chaps) measure just above bone		
7. Inseam – measure down to top of boot heel		
8. Outseam - measure down to top of boot heel		
Half Chaps	Left	Right
9. Knee – measure straight across the kneecap		
10. Below Knee – measure just below kneecap		
11. Upper Calf – measure the widest part		
12. Lower Calf – measure halfway between upper calf and ankle bone		
13. Ankle – (for English Chaps) measure just above bone		
14. Outseam - measure mid-knee down to top of boot heel		

Please also measure the distance from #1 to #2 and #1 to #4 and insert above (see arrows).

All measurements need to be precise to ensure proper fitting.
